About DTTC

Delhi Teachers' Training college (an affiliate of Guru Gobind Singh Indraprastha University, Delhi), is a self-financing, quality conscious and trend setting Institute with focus on providing equal opportunities for development of human potentials for every segment of society. An organ of Milli Trust (Regd.) is the vision of a galaxy of academicians, professionals, philanthropists and social workers. The Institute provides a conducive environment for academic and professional growth. In its efforts to create competent workforce, the institute organizes Conferences, Seminars, FDPs and special lectures for the faculty members of DTTC and other institutes with similar mission.

About the National Conference

Education is fundamental for achieving full human potential, developing an equitable and just society and promoting national development. Education policy of a nation is the key to fulfill national aspirations. The National Education Policy 2020 is the first education policy of the 21st century and aims to address the every growing development imperatives of our country. To lead India to the world leadership through economic growth, social justice, equality, scientific advancement and national integration, the policy envisions an education system that is rooted in Indian ethos and transforms India to a sustainable, vibrant knowledge society by providing high quality education to all.

The Holistic education envisages the whole growth of the learner than focusing on the specific aspects. The intellectual, academic, social, physical, emotional and moral capacities are integrated through multi-disciplinary approach. Multidisciplinary education flourishes and mould students to become capable to transform the world. Value Education is the need of hour as this is the tool to transform our youth in growing, responsible and sensitive citizens. NEP 2020 stands for futuristic education to make the educated, self-reliant through application based, job-oriented and value-based education.

The roadways to implement the envisioned policy to praxis need multiple initiatives and actions. When multiple bodies are synchronized together in multiple levels the visions will become realized. Understanding and rightly interpreting the policy is imperative for right implementation. We humbly help the stakeholders to respond pro-actively and constructively participate in the implementation to realize the dream of making India a knowledge power.

With an aim to make the people aware about the issues, concerns and approaches regarding the role of multidisciplinary and inclusive education for future development, at DTTC, we are going to organize a one-day National Conference

on the theme "Human Values and Ethics: Futuristic Education For Developing India" in the month of June 2024.

Objectives of Conference

1. To create a platform for teacher educator, researcher, administrators, educators and students to share and discuss their ideas on multidisciplinary and value education and its role in future development
2. To discuss new trends and challenges in implementation of value education
3. To discuss on the modern approaches for the education of the future
4. To discuss the policies of government and international bodies regarding value education, its role in future development and implementation strategies

The Conference is aimed to cover the following sub-themes:

- ❖ School Education
- ❖ Higher Education
- ❖ Teacher Education
- ❖ Open and Distance Education
- ❖ Adult Education and Life Long Education
- ❖ Vocational Education
- ❖ Online and Digital Education
- ❖ Academic Research

About DTTC

Delhi Teachers' Training college (an affiliate of Guru Gobind Singh Indraprastha University, Delhi), is a self-financing, quality conscious and trend setting Institute with focus on providing equal opportunities for development of human potentials for every segment of society. An organ of Milli Trust (Regd.) is the vision of a galaxy of academicians, professionals, philanthropists and social workers. The Institute provides a conducive environment for academic and professional growth. In its efforts to create competent workforce, the institute has started organizing FDPs and special lectures for the faculty members of DTTC and other institutes with similar mission.

About the FDP

The Faculty Development Programme is a major initiative which aims in fostering innovative teaching skills amongst the faculty. The FDP is designed to enhance the teaching and pedagogical skills of the faculty and to make them aware about the modern teaching skills and methodologies. This programme also intends to delineate the emerging statistical software applications to the researchers and academicians. It will be a practical and interactive programme to develop an understanding in carrying out the research. The FDP will offer practical and hand on approach to innovative skill building. It will provide a comprehensive understanding of research methodology that can better equip faculty to effectively guide their own research. FDP is designed to foster a sense of emerging needs of digital skill among the educators in order to be confident and for effective transaction of the contents.

Objectives:

The FDP has been organized with the following objectives

This faculty development programme is being organized in order to draw attention of the educators and teachers towards the teaching pedagogy and research. This will involve discussion about:

- > Acquainting the researchers and academicians to the basics of digital literacy
- > Helping teachers to understand the effectiveness of teaching skills.
- > Developing knowledge and Innovative skills among teachers and educators.
- > Enabling teachers to learn ways of integrating and promoting research in education in the curriculum and teaching learning activities.
